

3 DAYS ONLINE PROFICIENCY IMPROVEMENT PROGRAMME (oPIP) EMISSION TYPE APPROVAL

oPIP Overview:

Over recent decades, increasingly stringent emission standards have been enacted in all major world vehicle markets. Vehicles sold in these markets are required to comply with the applicable standard by passing a Type Approval (TA) Test or Conformity of Production (COP) Test. It is very important to understand the latest legislative emission limits under these TA and COP test. Such techniques are highly standardized to produce comparable results, especially those used for regulatory purposes. This oPIP focuses on the procedure to conduct Type Approval Test for various segments of vehicles, as per latest BS-VI regulations.

ARAI Academy presents a very comprehensive online Proficiency Improvement Programme (oPIP) on "Emission Type Approval" for students, faculty & working professionals. ARAI Academy also announces a special discount in eLearning course (ePIP) on "Emission Type Approval (Including BS-VI)", especially for the participants of this Programme.
