

RELIABILITY ENGINEERING

20th Oct, 2020

OPIP OVERVIEW

Reliability is Probability that a system will perform its intended function for a specified time under stated operating conditions. The importance of reliability has assumed new dimensions in the recent years primarily because of the complexity of larger systems and the implications of their failure. Assuring Reliability of new products is a major challenge for senior management of most organizations. It is important to understand methods to calculate reliability such as Accelerated Life Testing (ALT), Highly Accelerated Life Test (HALT), Environmental Stress Screening (ESS) and Highly Accelerated Stress Screening (HASS).

This oPIP on Reliability Engineering is designed to provide in-depth understanding of Reliability Engineering Basics, Life Data Analysis, Reliability in Design, Reliability Testing and various Statistical Techniques.

Join this oPIP to understand Reliability in a better way and enhances your knowledge to become more reliable.

Schedule (20 Oct 2020)

S. No	Topic	Time (IST)
1	Inauguration & Welcome Address	9.00 – 9.30
2	Introduction to Reliability	9.30 – 10.30
3	Life Cycle Analysis	10.30 – 11.30
4	Warranty Data Analysis	11.30 – 12.30
5	Reliability Testing	12.30 – 13.00
6	Demo of ePIP course	13.00 – 13.30

**ONLINE
PLATFORM**

**LEARN FROM
INDUSTRY EXPERTS**

**10 % DISCOUNT IN ELEARNING
COURSE ON RELIABILITY ENGINEERING**

REGISTRATION DETAILS

Rs. 500 + 18% GST =
Rs. 590/-

Mode of Payment:
Online Transaction

ARAI Account No:
04470200000280

IFS/RTGS/NEFT Code:
BARB0KARVER (0=Zero)

- After the payment, share your payment receipt and details at training.pga@araiindia.com
- 10% discount, if 5 or more delegates are registered from the same organization.
- Participants whose organization is in SEZ, kindly confirm for GST applicability, before making the payment.
- Email at jain.pga@araiindia.com to know more about other E-Learning courses.
